Zain Sadaqat

Use Hyphen Delimited Strings

```
1 .parent-class {  
2     ...  
3     ...  
4     ...  
5 }
```

Zain Sadaqat

Use double underscore for child

```
1 .parent-class__child {  
2     ...  
3     ...  
4     ...  
5 }
```

Zain Sadaqat

Use single score for nested child

```
1 .parent-class__child-one {  
2     ...  
3     ...  
4     ...  
5 }
```

Zain Sadaqat

Example

```
1 <div class="parent-class">
2   <div class="parent-class__child">
3     <div class="parent-class__child-one"></div>
4     <div class="parent-class__child-two"></div>
5     <div class="parent-class__child-three"></div>
6   </div>
7 </div>
```
