

# Grid-area property Syntax

Easy step by  
step,  
meow!

This means that "kittyfriends.png"  
**starts** in **Row # 2** ,  
**starts** in **Column # 1** ,  
**spans** in total of **2 rows** from Row 2  
**spans** in total of **3 columns** from Column 1

```
.kittyfriends {  
  grid-area: 2 / 1 / span 2 / span 3;  
}
```

grid-  
row-  
start

grid-  
column-  
start

grid-  
row-  
end

grid-  
column-  
end

Follow us meow!

 /kittycat

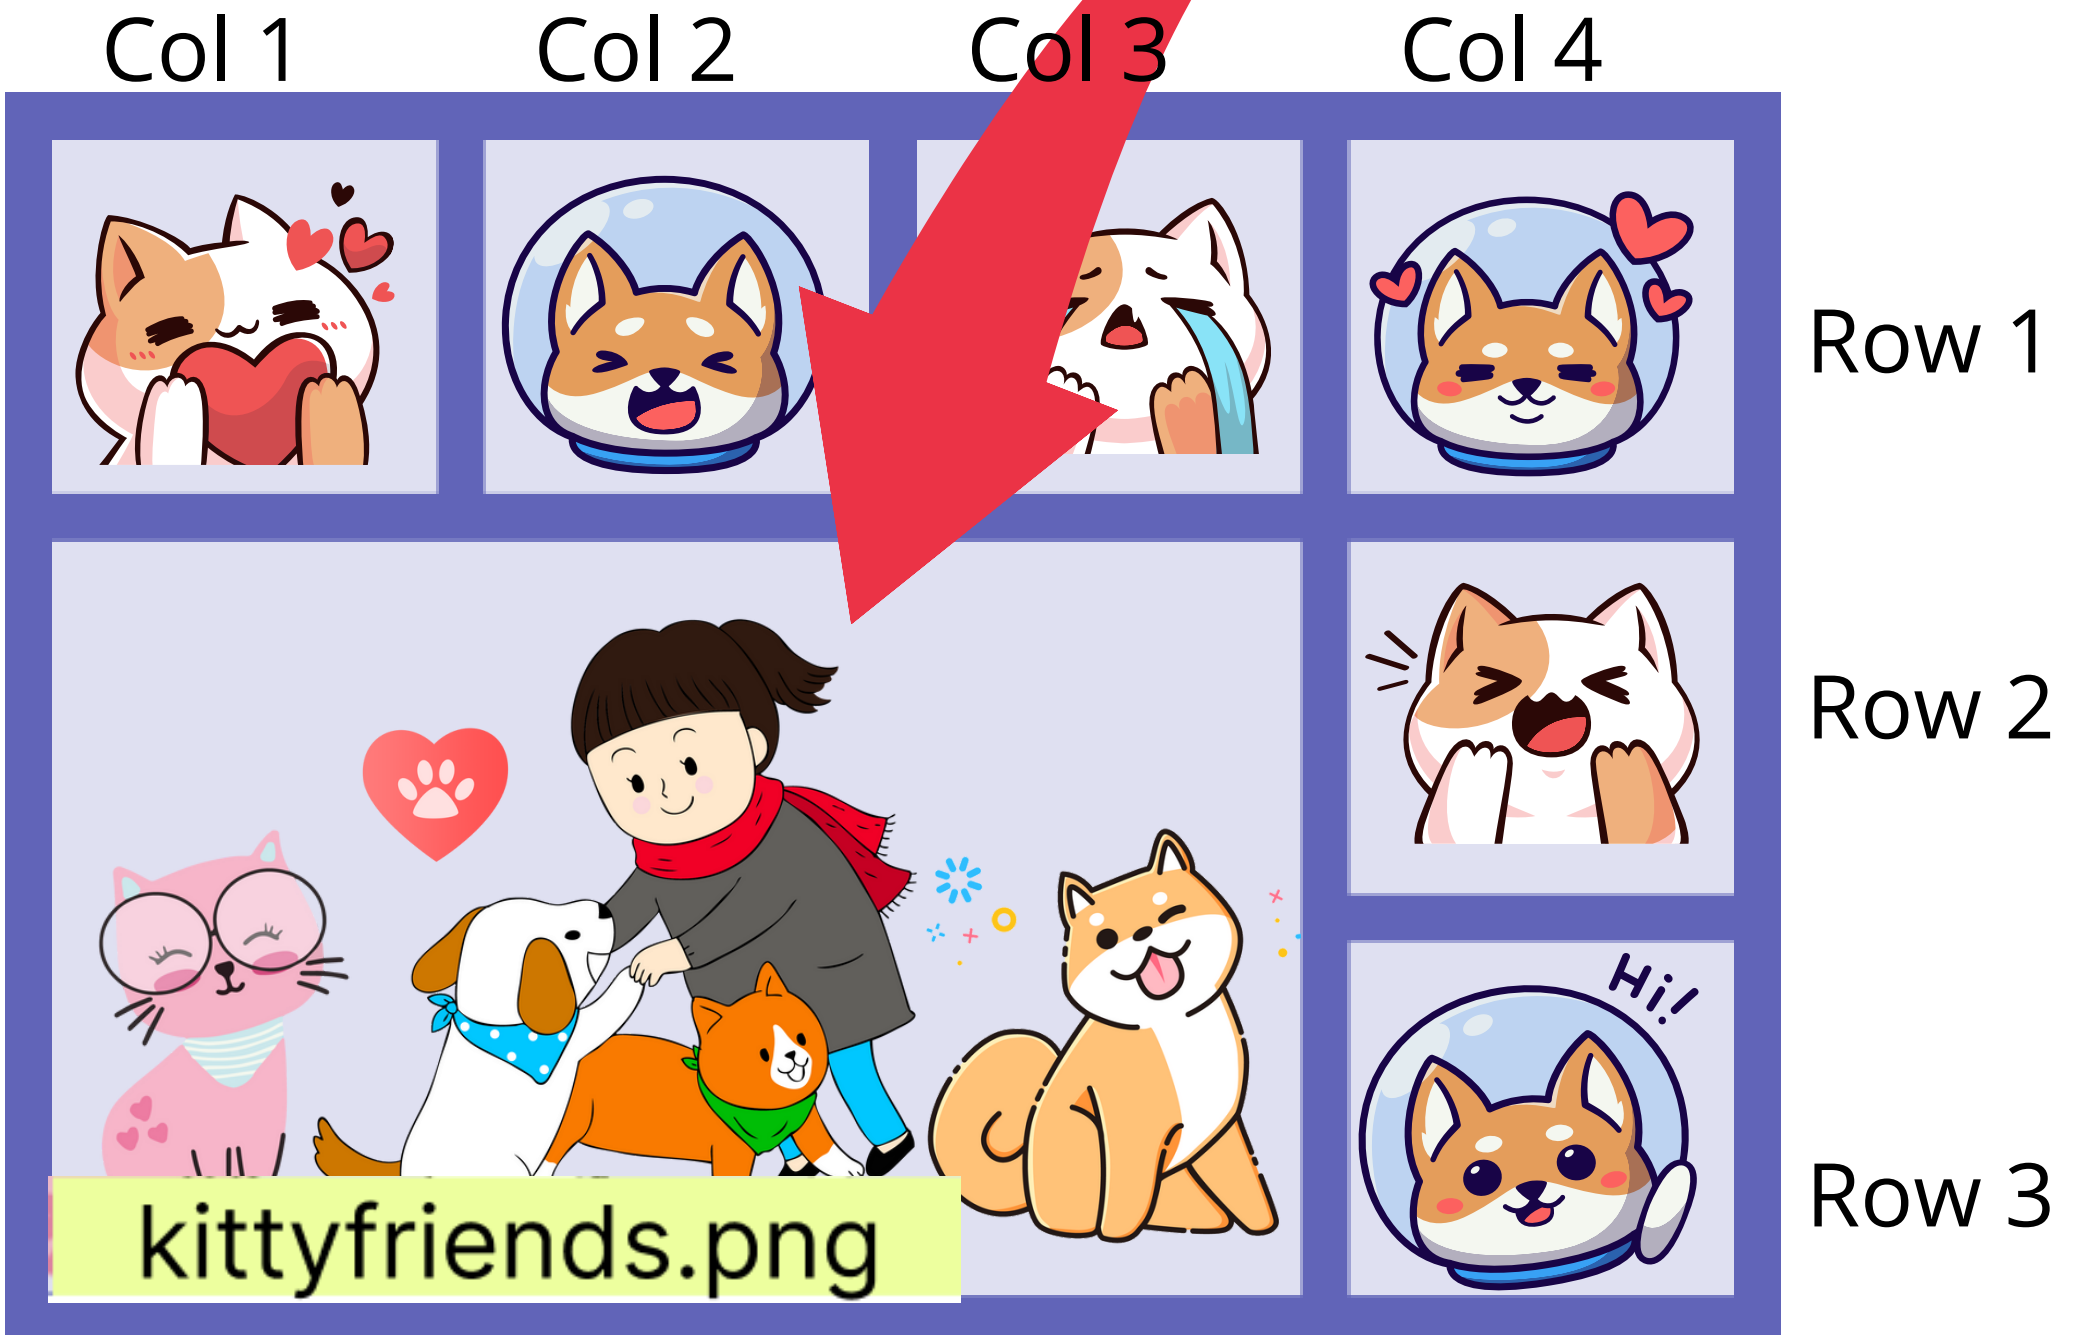

kittycat-tech

# code result:

**Grid-area property** specifies where **group pic** should be exactly located.

CSS Kitty  
& friends!
